not look for any venture of the kind for

weeks to come. There are but few arri-

vals from other parts at this time, not

many caring to endure the hardship of a

trip here during the prevailing cold

No. 3 shaft down 1,081 feet, and sink-No. 3 shart down 1,051 feet, and sink-ing still continues as fast as possible. Running drift west from tenth station; now in 41 feet; no change worthy of note in that drift. Running drift cast from ninth station; now in 372 feet. Sinking ninth station; now in 372 feet. Sinking winze from east drift of eighth station down to the ninth station. East drift on sth station in 418 feet. Good indications there. East drift on the 520-foot level still being carried ahead without any change worth mentioning. Summit shaft down 879 feet—rock very hard, progress slow. Running drift south from Summit shaft to connect with drift now state of the station of Summit shaft to connect with drift now being run west from the eighth station of No. 7. Teams loaded yesterday for the first time since the storm. Dump full of ore. Expect to continue shipping. AMERICAN PLAG.

Shipped during the past week \$16,700 in bullion. Nothing is doing in the mine except to sink the main shaft, owing to the late heavy snow-storm and the difficulty of gathering timbers and material to work the mine. Will resume the abitraction of the the mile some the shipment of ore to the mill some time during the week, as soon as the roads can be opened. The shaft is now 73 feet below the eighth level and sinking continues with eight-hour shifts. New nullers and pan bottoms are being put into the mill, which will resume work by Tuesday. Also ready to receive custom work, and intend to give satisfactory re-

WASHINGTON AND CREOLE.

Sinking progresses on the prospect and west winzes, each of which has a good ledge, being of an average width of two feet and containing rich chloride ore. Also drifting east and west and stoping up from the bottom of the two winzes in same character of ore. Drifting has progressed west from the prospect winze until a connection has been made with the Newark mine. The Washington & Creoleships to-day by Wells, Fargo & Co. \$9.005 in bullion. The company is working about 50 men, and in addition to the work before mentioned the Mazeppa shaft is being sunk to connect with the Washington & Creole.

PIOCHE. The hoisting works have been moved from No. 9 to the new shaft a short dis-tance east of the old Burke shaft. It was the intention and expectation of the Superintendent to have the new works in place ere this, and he would have suc-ceeded but for the recent heavy storm. Still extracting ore in the old shaft, and hoisting will be expressed in a few hoisting will be commenced in a few days. We saw at Butler's assay office a very handsome bar of bullion just as it sme from the mould, which is worth about \$1,400, and was made from ore extracted from the Pioche mine.

PAGE & PANACA. Busily engaged in putting in a station in the winze, so that a large force of men can be put to work and ores hoisted more expeditiously. The ledge struck the other day is improving. Assays made since our first notice of it show a yield of \$1,969.78 to the ton. We hope to be able to give a more extended notice in our next report.

NEWARK. F. W. Clute, the new Superintendent, has just returned from San Francisco, but has not as yet had opportunity to mark out any particular course for the future. He will have his plans perfected in a few days however, and will then go to work to develop the mine.

PRAVINE. Drifting towards the new shaft is still under way, and it is expected that a connection will be made between this time and Christmas. Will commence to take out ore as soon as the connection is

SILVER PEAK. Work is still progressing satisfactorily, and the prospects of the mine are generally good. A few months ago its stock was down to 25 cents, but yesterday it was quoted at \$1.25.

INGOMAR. Work in this mine will be resumed to-morrow (Monday). In our next review we expect to be able to give a good ac-count of the Ingomar.

AMADOR MILL AND MINE. The mill will start up on ore from the Washington & Creole mine to-day. The shaft of the Amador mine is now down 450 feet, and sinking is still going on.

ALPS. The cross-cut at the 300-foot level is now in about 500 feet from the shait. The winze at the second level still shows

LOUISE. We have nothing of special interest to mention this week. It still looks prom-ising,

HUMM & MUNT.

No change worthy of note. Work is progressing as usual, with good indica-tions.

SPRING MOUNT, In this mine work is being pushed energetically, without material change PLOCKE WEST.

No change in the work on this mine B. AND B. CLUB.-This club, which in imes gone by was quite an institution in

Pioche, has been re-organized under dif-ferent and more favorable auspices. It is the purpose of the Club to give parties twice a month hereafter. SURRHINE AND SNOW .- Yesterday the sun shone brightly all day, producing something of a thaw, but with continuous cold nights it will take some time to melt off the great accumulation of snow.

THE COLDEST,-Night before last was he coldest of the season in Pioche, but it did not begin to compare with the rigor of the temperature at Dry Valley, ten miles distant. We could scarcely credit miles distant. We could scarcely credit
the statement we are about to make had
it not come to our knowledge in such a
manner as to leave no room to doubt its
correctness. From Mr. Tyrrell, Superintendent of the Meadow Valley Company, we learn that Mr. Williams, assayer
at the Meadow Valley mill, Dry Valley,
has been keeping a thermometrical record, and gives the following exhibit:
Thursday, at 5 a. m., 12 degrees below
zero, Friday, at same hour, 14 degrees;
Saturday, at 5 a. m. 22 degrees below
zero.

COASTING.-Yesterday there was an unusually large number of men and boys, besides a good many children, engaged in the pleasant pastime of coasting on the pleasant pastime of coasting on Meadow Valley streat. Some of the more expert went from the summit as far down as the Dexter stables. There were many laughable incidents, but by the merest chance no accident occurred. It is useless to declaim against coasting; even if there was any law to prevent such sport it would take the police forces of London, Paris and New York to enforce it. Nothing but a few days of continuous warm weather will stop the fun. tinuous warm weather will stop the fun

MAIL IRREGULARITIES. - A gentleman who formerly resided in Proche writes to received for the holidays a large assortus from Silver City, Idaho, under date of December 5, and says: "Why is it that the RECORD does not come to hand? I do not receive half the numbers due me. I like to know what is going on in Pioche, but cannot tell much about matters there unless the Recond comes reg-ularly." We assure our old Pioche friend that the Recond is mailed to his address regularly, and his failure to re-ceive the paper is doubtless attributable to some mail irregularity after the paper leaves the Pioche office.

HOLIDAY PRESENTS .- Every man who has a wife or a sweetheart (and what man has not?) should make haste to call at Mrs. Whyland's, Lacour street, and pro-cure a nice Christmas or New Year's pres-ent for her. Mrs. W. has had great ex-perience in the millinery business, and all who patronize her establishment may be assured that they will obtain articles of the very best quality.

DISTRICT COURT .- In the case of Ah Kee vs. James W. Wright, tried by a jury, a verdict was yesterday rendered for

JUDGE BEATTY'S DECISION .- This morn ing's issue contains the conclusion of Judge Beatty's decision in the Raymond & Ely-Kentucky case. The decision has occupied five consecutive issues of the RECORD, and will be issued in pamphlet form. Copies can be obtained at our publication office, Main street, on Tuesday.

NEWSPAPERS, ETC .- We are indebted to Charley Wiederhold tor the usual supply of newspapers and periodicals. Wie-derhold has a full and complete assort-ment of everything in his line, including light literature.

MR. P. HOLLAND leaves Pioche by this morning's stage for San Francisco, in quest of health and recreation. Desirng to visit the Gilroy Hot Springs during his absence, he will be missed from Pioche for some weeks. We commend Mr. Holland to the tender regard of our cotemporaries in Western Nevada and California.

WHAT'S THE MATTER NOW?-Are peo ple actually reforming? It would seem so. Indeed it appears as if an era of good feeling had set in, for during the week ending last night only two cases of infraction of the law's majesty and the State's dignity were brought before Jus-tice Van Hagen. This is well.

BULLION SHIPMENT. Per Wells, Fargo Co. -Total for the week ...... 929,676.71

THE VALUE OF A NEWSPAPER. - Every day we receive additional evidence of the value of a newspaper. Near a Western value of a newspaper. Near a western city not long since a man fell into his well, and although not much hur; he could not get out, and he shouted in vain for assistance until the faithful carrier came along to deliver his paper. Hearing the cries of the luckless individual, the carrier went to his aid and rescued him. In a mining camp, where causualties such as we have related are so liable to occur everybody ought to take the local paper.

HAMILTON STAGE. - The Hamilton stage arrived last night about half-past eight o'clock, which was making pretty good time, considering the obstacles to be overcome on the route. We look for schedule time in future unless another storm upsets our calculations.

RAFFLE.-On the evening of the 25th, (Christmas) at Hamilton's Saloon, a buggy, pair of horses and harness will be raffled for. The property belongs to W. C. Glissan and J. W. Peck, and may be seen at Glissan's stable.

MASONIC.—Following are the officers elected last night by St. John's Lodge, J. F. Hallock, W. M.; D. E. Mitchell, S. W.; J. Vivian, J. W.; D. A. Fulks, Treasurer; Samuel McAdam, Secretary. HOLIDY PRISENTS .- P. Heitzelman has

ment of diamonds, jewelry and silver-ware, which he will sell cheaper than any house in town. Call and examine. d12-1m SERVICES AT THE COURT HOUSE TO-DAY.

Notice! Notice! OFFICE FLORAL SPRINGS WATER Co., July 30, 1873. July 30, 1873.

THE FOLLOWING REGULATIONS HAVE been duly adopted by resolution of the Board of Trustees of the

Board of Trusices of the

PLORAL SPRINGS WATER CO.

They are to be strictly observed by consumers of Floral Springs water:

1. In all cases of non-payment of the water rent within three days after presentation of bill the supply will be cut off, and the water shall not again be let on, either for the present or any subsequent occupant, except upon the payment of the amount due, together with the sum of two dollars; provided that in cases of specific supplies, or for fractional parts of the month, where the water has been let on, it may be cut eff immediately after notice given at the place that the rent is not paid, and may be let on again upon the condition before mentioned.

2. No person or family supplied with Floral Springs water will be permitted to use the water for any other purpose than that stated is this agreement, nor to supply water in any way to other persons or families.

3. Consumers shall prevent all unnecessary waste of water, and shall make no concealment of the purposes for which it is used.

4. No alterations shall be made in ar - waterpipe or future without first giving notice or the intended alteration atthe office of the Company.

5. In all cases where water is to be supplied to several parties or tenants from one connection or tap, the Company centracts only with one of said several parties or tenants from one connection or tap, the Company centracts only with one of said several parties or tenants from one connection or tap, the Company centracts only with one of said several parties, and on his default to abide these regulations, and pay the rates, will cut off the connection.

6. Whenever any of these regulations shall be violated the supply of water will be discontinged, and not resumed until all charges and expenses are satisfied.

7. All persons taking water shall keep their service pipes in good repair, at their own expense, and they will be held liable for all damages which may result from their failure tod so, so sprinkling with hose and standing irrigators will mot be allowed u FLORAL SPRINGS WATER CO.

ises supplied with water, to see that these regulations are observed.

The attention of customers having pipe conmections is hereby called to the above fulles and
Regulations, adopted by the Board of Trustees,
and which are hereafter embodied in all contracts for water, and required to be signed
before the supply will be furnished. The above
regulations will be strictly enforced, and parties
neglecting or refusing to compily w them will
have their supply of water discontinued at
once. The Company reserves the right of placing maters on all places supplied through the
pipes, in which case two and one-half cents per
gallon will be charged for the water used, and
one-half the cost of the meter and placing upon
the premises. Parties having hose, in case of
fire, will be allowed to use water to extinguish
the same free of charge. Water will be supplied
By carts, within the main
